8672

Euro model

Currency counting machine

High function, heavy duty counter with currency-specific authentication

8672

Currency counting machine

The **8672** high function, heavy duty desktop currency counter, provides currency specific authentication at speeds of up to 1750 notes per minute.

High speed performance

The heavy duty machine provides smooth, fast and reliable processing of banknotes and other documents, such as cheques. With a choice of three throughput speeds, the **8672** adapts automatically to individual note characteristics enabling more constant counting and is ideal for environments where high volumes of notes are processed.

Multiple functionality

Rogue note detection by height (SD) is standard for all non-Euro models. With currency-specific counterfeit detection options and 3 levels of totals, the **8672** is suitable for use in cash centres and large retail and commercial deposit proofing and preparing centres.

Easy to use

The large LCD display and touch pad places the control of the machine at the operator's fingertips. The wide document loading and removal trays ensure fast, efficient processing.

Range of options

Euro models are available with optional UV detection.

Non-Euro models are available with the following counterfeit detection options:

- UV - checks banknote paper for fluorescence
- CDA - measures the presence of magnetic ink
- MTD - checks for the presence of metal thread

Intelligent

An optional RS232 serial port provides an easy interface to a printer, PC or other device for reconciliation.

De La Rue Cash Systems' counters are the direct result of 40 years' experience in designing, manufacturing and distributing world-class currency counting machines. Worldwide service and support specialists are provided through De La Rue Cash Systems' network of branch offices and authorised distributors.

Technical Specification

Document size range
51mm x 102mm to 108mm x 241mm

Hopper capacity
1000 notes

Stacker capacity
200 notes

Throughput speeds
500/1000/1750 notes per minute

Batching capacity
Variable 1-999

Power supply
115V AC, 50/60Hz, +230V

Options
Magnetic counterfeit assist (CDA)

UV detection aid

Metal thread detection (MTD)

RS232 interface link

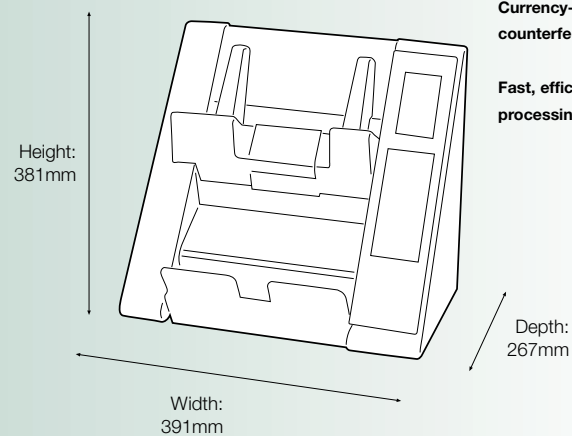

89mm large output tray –
600 notes capacity

Euro Models
Euro model standard (non-SD)
RS232 standard

Euro model with UV (non-SD)
RS232 standard

Options
89mm large output tray –
600 notes capacity

Dimensions

Weight: 10.2kg

Heavy duty unit

Currency-specific
counterfeit detection

Fast, efficient
processing
