**CC1**

## Coin counter

Efficient, compact coin counter, suitable for any coin processing environment

# CC1

## CC1

The **CC1** is a compact, single denomination coin counting machine.

### Fast, efficient throughput

The **CC1** is a tabletop coin counter, that can reduce coin processing times by accurately counting up to 2,000 coins per minute.

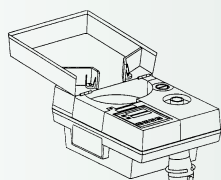

With continuous count for verification purposes, the **CC1** can accumulate the number of coins counted into several batches, increasing operator productivity.

### Compact size

2,000 coins per minute

Easy to operate

Tabletop and portable

### Compact size

Utilising minimal counter space, the **CC1** fits into any coin processing environment. With a folding hinged coin tray cover, the **CC1** is easily stored and transported.

### Ease of use

The **CC1** is easy to operate, with little-to-no training required.

With its compact, modular design, the **CC1** is also easy to service and maintain.

### Multiple functionality

In addition to counting coin into bags, the **CC1** can wrap coin into tubes.

Programmable bag stops allow bags/tubes to be filled up to 9,999 coins, for complete processing flexibility.

The **CC1** is able to count a specific denomination within a mixed batch of coin. Smaller coins are discarded to the off-sort slot, which can be filled with a cup or bagging attachment.
