

LC150 Note Sorter

The new LC150 desktop currency sorter with reject pocket offers increased productivity through continuous operation.

Standard features include the ability to count and sort mixed denominations for UK Sterling, US Dollars and Euros, while at the same time providing the latest in counterfeit detection technology.

The ability to sort notes and count mixed bundles is easily handled by the LC150. Each note is checked for their value and an aid to recognizing counterfeit notes.

The LC150 is available to count Sterling, \$ and Euro.
