

LCS220 Bank Note Sorter

The LCS220 Bank Note Sorter is a fast simple way to sort, count, verify and batch your bank notes.

Programmed to detect the image and authenticity of a bank note this is a quick and easy way to check for counterfeits. It has one and a half pockets designed to quickly reject anything suspicious.

This second half sized pocket can take up to 100 notes and is an efficient way of sorting and separating your bank notes.

When counting £ Sterling you can choose whether you want to sort or count a mixed bundle. It has a third mode which enable you to piece count other currencies or paper.

The LCS220 comes with UK Sterling programmed as standard and is available in US Dollar and Euro variants.
